

ANTI-SALOON MEN WILL MAKE NO WAR ON USE OF TOBACCO

Trustees Limit Campaign to
Alcoholic Liquor—Say Wil-
son Was Misled.

Following the annual meeting yesterday of the State Board of Trustees of the Anti-Saloon League of New York, in its rooms, No. 906 Broadway, official announcement was made that the organization will not make any campaign against tobacco "or anything except the traffic in alcoholic liquor for beverage purposes."

Incidentally, the meeting decided to advise the Anti-Saloon League constituency to oppose Senator Wadsworth for re-election and to condemn the attitude of Congressman Haskell, approve the Prohibition Enforcement Bill prepared by the League's staff, and instructed the Superintendent to interrogate candidates for the Assembly next fall as to their attitude upon it and publish the replies, and called upon Prohibition advocates to protect the Assemblymen who voted for ratification and stand against nullification.

The following resolution on President Wilson's wine and beer recommendation was adopted:

"We regret that, through the influence of close advisers, representatives of the brewery-sympathizing, un-American reactionary elements within certain important groups of our population, the President of the United States has been so misled as to the state of public opinion upon the Prohibition issue in America as to make a recommendation in favor of beer and wine."

"We hereby respectfully call upon the Senators and members of Congress from New York State to uphold American moral standards and refuse to surrender to the German brewers, and to demonstrate such attitude by the immediate passage of adequate legislation to enforce not only the Eighteenth Amendment to the Constitution, but also the Emergency Act passed to cover not merely the period of the war but also the period of demobilization, the need for which has not ceased and will not cease until America is no longer called upon to feed hungry millions abroad and until our soldiers have been assimilated back into civil life."

The league's financial report shows that its expenditures for the fiscal year were \$271,323.66. Of this \$14,844 went for staff salaries and \$51,907 for office help.

Among the new officers elected are the Rev. Dr. James Burrell, President, and Truman H. Baldwin and the Rev. Dr. W. H. Morgan, New York; the Rev. Dr. F. H. Corman, Buffalo; and the Rev. Dr. W. C. Spicer, Gloversville, Vice Presidents.

J. ROOSEVELT TESTIFIES VON TILING WAS LOYAL

Defendant Says Government Suit
Grew Out of Jealousy and
German Name.

James Roosevelt of Hyde Park, N. Y., a brother of Franklin D. Roosevelt, Assistant Secretary of the Navy, was among the character witnesses yesterday for Dr. Johannes H. M. A. Von Tiling, the wealthy Poughkeepsie physician, at the Government's suit to cancel his citizenship papers.

Mr. Roosevelt said Von Tiling had been his personal physician for ten years and was truthful. He said: "I never heard Dr. Von Tiling make a disloyal or unpatriotic utterance. Other witnesses were professors at Vassar, bankers of Poughkeepsie, and clergymen who spoke highly of Von Tiling's Americanism."

Dr. Von Tiling set forth that the allegations made against him were the result of professional jealousy, his German name and appearance. He declared he had told Federal agents that if Germany dared to come to the United States he would enlist in the American Army.

Charles J. McCabe, Chief of Police, and Detective V. Sholey of Poughkeepsie testified they heard Von Tiling declare that the sinking of the Lusitania was justified and that America was foolish to enter the war. The case will continue to-day.

ACTORS' DEMANDS WILL BE ARBITRATED BY MANAGERS

Meeting of Producers to Be Called
as Soon as Resolution
Reaches Them.

L. Lawrence Weber, Secretary of the Producing Managers' Association, said yesterday the managers had not received official notification from the Actors' Equity Association of the resolution asking arbitration which the actors passed at their annual meeting Monday.

He intimated that the managers would regard arbitration favorably, as the managers' flat refusal last week to consider the actors' demands was based on the assumption that those demands constituted an ultimatum. The principal issue is the actors' request that eight performances constitute a week's work, with one-eighth extra pay for performances on Sundays or holidays.

When notification arrives Sam H.

Harris, President of the Managers' Association, will call a meeting to decide whether the managers will accept arbitration. The resolution passed by the actors urged that each side consider the decision of an arbitration board binding, provided it is reached within thirty days.

The actors and managers are to have equal representation on the board, which will also include a non-professional of national prominence.

Marine Will Ratify British Sale June 10.

Directors of the International Mercantile Marine Company yesterday authorized a special meeting June 16 to ratify the sale of British tonnage to an English syndicate. The notice states that as a result of the deal there will remain in the treasury \$2,000,000 in cash in addition to the present surplus to the American company. This sum will be the residue after payment of all compensation and expenses and providing for the payment of the outstanding debentures of the Oceanic Navigation Company and the ordinary and preference shares of Frederick Leyland & Co., Ltd.

ALFONSO'S GRIM SOUVENIRS.

Each Article Represents Attempt On King's Life.

(From the People's Home Journal.)
To King Alfonso of Spain belongs the distinction of possessing what probably is the world's most curious collection of souvenirs. Each article therein represents an attempt on the king's life. First in the collection, chronologically, is the top of a nursing bottle with which an attempt was made to poison Alfonso when he was eight months old.

There are also a cane with which a servant tried to kill him, pieces of a bomb thrown at him in Barcelona, the skeleton of one of the horses killed by a bomb hurled at his carriage in Paris, and fragments of the infernal machine thrown at the royal carriage on Alfonso's wedding day.

man, chased them for twenty miles, and was gaining on them when they fired on him. Five bullets hit him; he fell dead in the road and the men escaped.
